

Mohamed Yassine Gadhgadhi

Computer Science Engineer

Education

- Preparatory institute for engineering studies / 2019 - 2021
Preparatory institute for engineering studies of Tunis - Physics/Chemistry
- Computer Science engineering / 2021 - 2024
National School of Engineering of Sfax - Computer science Engineering

Professional experience

- Cyber security Intern at Talan/ Febraury - june . 2024
SOC Detection Capacity Assessment Tool
- Cyber security Intern at DefensyLab / July - September . 2023
Active Directory Penetration Testing
- Defensive Hacking Intern at Excelerate/ June - July . 2023
Setting up a virtualization environment for threat assessments testing
- Cyber security Intern at DefensyLab / July - August . 2022
Development of a CTF competition

Extracurricular activities

- Founder, President at SecuriNets ENIS university club / 2022 - 2023
- National Student-Entrepreneur Status at PEES / 2023 - Present

Certifications and Accomplishments

- Hacker rank on HackTheBox CTF platform
Solved more than 20% of the active problems on the platform
- IBM Certified : Cyber Security Analyst
Network Security, Endpoint Protection, Incident Response, Threat Intelligence, Penetration Testing, and Vulnerability Assessment
- CyberTalents Certified : SOC Analyst (Blue Team Scholarship 2023)
- CyberTalents Certified : Threat Hunter (Blue Team Scholarship 2023)
- Microsoft Certified : Azure Fundamentals (AZ-900)
- Microsoft Certified : Security, Compliance and identity fundamentals (SC-900)
- AWS Cloud Quest: Cloud Practitioner

Competitions

- HTB Cyber Apocalypse CTF 2024 - 107 / 5694 teams
- Ramadan's Spark CTF 2024 - 2 / 60+ teams
- Hackfest FINALS CTF 2024 - 5 / 16 teams
- Arab Security CWG CTF 2023 - Top 30 out of 738 teams
- Amateurs CTF 2023 - Top 35 out of 913 teams
- Arab Regional Cyber CTF 2023 - 17 / 448 teams

Projects

- Intrusion Detection System using ML
Dataset Gathering, making and model training
- Packet sniffing and manipulation
Network packet modification on kali linux
- Personal Portfolio
Created using Next JS and hosted on github
- C++ Malware Development
Evading AntiVirus detection
- Self Replicating Assembly code
Evading AntiVirus detection
- Authored CTF challenges
CyberTek CTF / Tekup Mini CTF
